

The Mozart Effect Individual Summary Data Sheet

Turn in at end of lab for participation credit for the lab,
plus data possibly used for further statistical analysis.

Printed Name: _____ Lab Section _____ Male or Female?

	Type of Music	Average Test Score (Get total and divide by 10)	Rank Highest 1 – Lowest 6
1	Silence # 1		
2	Classical #1		
3	Contemporary #1		
4	Classical #2		
5	Contemporary #2		
6	Silence # 2		

Record the Average Test Score after each memory test during the lab. This score will not be publicly posted.

Record the ranks after all six memory tests have been completed and scored near the end of the lab. This score will be publicly posted but not by name.

If two or more average test scores are tied, then record the same, average rank for those types of music. For example, if there is a tie for the second and third ranking, then record a rank of 2.5 for both of them. For example, if ranks three, four, and five are tied, then record a rank of 4 for all three of them.
